Hairdresser Training Courses

Women’s and Men’s Hairdressing Course

The **Swiss Beauty & Hair Academy, Professional Hairdressing School** offers initial hairdressing training of at least 12 months in the case of the **Female Hairdressing course** and the **Men’s Hairdressing course**, to a maximum of 18 months in the case of the **Unisex Hairdressing course**. All our training, whether at a practical or theoretical level, includes all the basic teachings essential for learning the profession, as well as current techniques of coloring, cutting, among others, which are regularly updated to ensure greater ease of access to the current market.

Our classes are oriented in the student's mother tongue, in small classes so that we can guarantee intensive and personalized support.

Ladies Hairdressing course

Learn everything you need to know about women's hairdressing craft. Take a look across the hair history, to client consultation, to how to give the desired final result to your client. Learn color and cut techniques to styling and finish.

Men's Hairdressing course

With this course, you'll be ready to get into the Men's Hairdressing Business. By learning the hairdressing basics, such as perms, color and highlights, you'll be more than able to provide a complete and professional service to your clients.

Complete Hairdressing course

The best option when you want to combine both worlds in one only. With this 18 months course, you'll get an extended and deep knowledge about the Hairdressing Craft.

Periodic evaluation and conclusion of the training:

The evaluation of the hairdressing training is divided into 2 moments: the first at the end of 6 months (in the case of the 12-month course) or at the end of 9 months (in the case of the 18-month course), where the initial contents will be evaluated. Finally, the last test will be at the end of the training where the student, besides performing the exercises in training heads, will also perform in live models. In addition to these two moments of assessment, throughout the

training, the student will also be assessed through theoretical tests.
